We would again call the attention of our citizens to the provisions of Chapter 8 of the Public Statutes of New Hampshire, and also to Chapter 118 of the Laws of 1895 in relation to the establishment and maintenance of free public libraries.

We gratefully acknowledge the receipt of various reports and public documents from the state and general government.

OTHER GIFTS DURING THE YEAR.

By the Ladies' Aid Society of the Unitarian church, their Sunday school library, which they have kindly loaned to the town for a great many years.

Miss Richards, Providence, 29 books and McClure's Magazine.

Mr. E. H. Batchelder, Boston, 23 books.

Miss Royce, Newton, 5 books.

Miss Lawson, Milton, 2 books.

Miss Addie Ayres, Medford, Our Dumb Animals.

Miss Bacon, Brookline, Our Four-Footed Friends.

Lawrence and John Blair, "Our Little Ones," and The Children's Magazine.

The supervisors of the town library in submitting their annual report would congratulate the town on the almost certain

prospect of securing a library building. Its need has been long felt.

The generous donations that have been received from non-resident friends of the town, make this assured if our own people show the same interest and public spirit.

Let every one consider this as important as if it was his own personal matter. The generous and munificent gift of Mr. Daniel E. Bradley, the terms of which have been stated in a widely distributed circular, ought to be sufficient incentive for a generous response from our own citizens. Let everyone give according to his means and not hold back because the contribution is small. Sometimes the small gifts from a big hearted man or woman whose means are limited may mean as much to him or her as a large gift from someone abundantly able to give.

On reading the list of books purchased the past year you will notice several volumes of solid merit from authors of reputation. Such works as "Thayer's Life of Cavour," "Amiel's Journals," "John Brown Fifty Years After," Jefferson's "Why We Believe in Life After Death," books of permanent worth that ought to be read, no library can be considered worthy of the name without such books.

In this day of such multiplicity of novels, that are here today and gone tomorrow, it is well to remind our readers, in this centenniel year of Dickens, that the old standard classics are still on our shelves, that Scott and Dickens are old friends who are never seen with new faces. That "Ivanhoe," "The Heart of Midlothian," "David Copperfield", and Pickwick" are still the old friends who are "Comforters in sorrow, companions in solitude." Don't forget them.

Respectfully submitted,

ANNIE L. COLBY,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board:

My third annual report—the twelfth report of the superintendent of schools—is herewith presented.

The present enrollment by schools and grades is as follows:

Schools.	Grades.									
	I	II	III	IV	V	VI	VII	VIII	Total.	Increase
Number 1	3	2	4	0	4	4	0	0	17	4
Number 5, Primary	12	6	11	6					35	11
Number 5, Grammar					0	18	5	6	29	2
Columbian Primary	17	13	13	9					52	10
Columbian Grammar					5	6	7	5	23	2
Number 10	4	0	5	0	8	0	3	0	20	0
Total	36	21	33	15	17	28	15	11	176	29

This table shows an increase in the enrollment in every school in town except No. 10, where the enrollment is the same as last year. The Columbian Primary school is overcrowded this year and will be more so next, as the entering class will no doubt be larger than the class sent into the grammar school, and generally the pupils leaving town about equal the new ones coming in. If the seventh and eighth grades of the Columbian Grammar school could be transported to the village school and the other grades be divided between two teachers the situation at the Depot would be relieved and, in my opinion, no disadvantage would result to the village schools as even then there would be but about forty pupils in the Grammar school and of course it would not affect the Primary school at all. Under such an arrangement three of the schools would be three-grade schools and only one have four grades in the same room as there will be no sixth grade at the village next year.

If this transportation were combined with the Depot transportation already existing it ought not to be very expensive.

It seems to me that some arrangement should be made so that a teacher may be in charge of the schoolhouse at noon, both at the village and Depot schools. With so many children spending the noon hour in the building it is but natural that plays get too rough and troubles arise which might be avoided if some person with authority were present. With two teachers to divide the work such an arrangement would not make an unreasonable demand on the teachers.

The attendance in the Fitzwilliam schools is excellent and would be satisfactory were the absences fairly divided among the schools and pupils, but as long as children are allowed to remain at home for trivial reasons and thereby interfere with their own progress and that of their classes it cannot be said that conditions are satisfactory. Such absence rarely occurs at the Depot or No. 10, but is much more frequent at the village and State Line.

The schoolroom at No. 10 is filled and it is very hard to obtain satisfactory heat and ventilation, especially in the colder weather. I wish to call your attention to the very satisfactory results that are obtained by the use of ventilating stoves which not only maintain an even heat in every part of the room and do not make it necessary to give up more space than is required for the floor size of the stove but in addition constantly supply fresh air to the room and provide for the removal of the foul air. These stoves can be placed in the corner of the room. The cost of the stove in the room ready to use is about one hundred dollars. Such stoves are in use in Rindge and Jaffrey and have given very satisfactory results not only in heating and ventilating, but have proven much more economical in the use of fuel than the ordinary stove and in the rooms where they are in use school commences at 9 o'clock with each pupil in his own seat and comfortable.

No. 10 school was fully, and the Columbian Primary school partly equipped with slate blackboards last summer and a few

boards were placed in other schools; I would urge the Board to add to this equipment each year until the schools are all supplied with enough good blackboard surface. There are a few adjustable seats anl desks in each of the primary schools but not enough to meet the needs of the schools; there should be more of these purchased for immediate use, not only in the village schools but for No. 10 school, where, with the number of small children enrolled, the seating accommodations are poor.

There have been constant additions to the reading material and wornout copies of the Geography in use have been replaced by copies of a recent revision of the same text book, thus securing an extra discount and a better book. The Gulick texts in Physiology anl Hygiene are in use in some of the schools; these books are endorsed by educators as well as by the Woman's Christian Temperance Union and others particularly interested in temperance instruction in the public schools. I hope that these introductions may be completed during the coming year.

In two schools there have been changes in teachers during the year with the attendant interruption to the school work. This is to be regretted but was unavoidable.

The Supervisor of Music is visiting the schools during the winter term and we hope that this may make the instruction in music more continuous and give more satisfactory results.

I wish to express my appreciation of the many courtesies which have been shown me by the School Board and by citizens and of the many pleasant acquaintances among the teachers and pupils of the Fitzwilliam schools.

Respectfully submitted,

JAMES N. PRINGLE,
Superintendent of Schools

East Jaffrey, N. H., February 1, 1912.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. J. N. Pringle, Superintendent of Schools:

The following report of the music department is respectfully submitted to the superintendent and school board of Fitzwilliam:

The pupils of all the schools excepting the grammar grades are separated into upper and lower divisions according to ability. In the primary schools the lower divisions are taught rote songs taken from the Modern Music Primer and Cole's Child's First Studies in Music. The upper divisions are studying one and two-part music in the First Reader of the New Educational Course.

The village grammar school is given one and two-part work in the Second Reader. The Third Reader is used by the Depot grammar school, and two and three-part songs are studied.

The children are carefully drilled in all musical terms, individual sight-reading and interval work is taken up daily.

Great care has been taken to correct the monotones. Tone work used for this purpose gives a certain sweetness and purity.

To the superintendent, teachers and pupils I wish to express sincere thanks for the interest shown and kind support given me.

AMY B. KNEELAND,
Supervisor of Music.

BOARD OF HEALTH REPORT.

Only one case of diphtheria and two cases of scarlet fever have occurred during the past year.

One of the scarlet fever cases proved fatal, the child being sick only two days. Every precaution was taken to prevent the spread of these diseases and the houses were properly disinfected.

Mumps have been very prevalent among the school children, especially at the depot and No. 10.

We would especially call the attention of parents to the law which prohibits children, while infected with any communicable disease, from attending the public schools.

It will be necessary for all owning cottages at Laurel lake to make some provision this spring preventing sink water and other waste material from draining into the lake. And we trust that this may serve as a notice to that effect.
